

☆☆☆ FBs-30GM OS kernel version 10.116.3.16 includes new function.

04/15/2015

● Integrate installation software packages, user may just execute Fatek GMMon Setup.exe to install GMMon. OS kernel after version 10.116.3.16 may be incompatible with old versions of GMMon, please install the latest version of GMMon.

● Support different servo driver control modes by setting parameter Pr381~383, including A/B Phase Position control mode, CW/CCW Position control mode, Sign+Pulse mode (Positive logic), and Sign+Pulse mode (Negative logic).
